## Something to Think About By F. A. WALKER

MEN'S WEDDING RINGS.

The lovely Spanish favorite Anna T HE Brooklyn Eagle, which reports most things accurately and well, place among the feminine names of our country as the equally exotic published the news that in its city funnita which followed the song of the use of wedding rings for men is that title. Anita however, is much gaining rapidly in popularity, This is interesting and important if more redelent of North America than

is prototype. For Anita, signifying it means that men are coming to take the marriage ceremony and its vows more seriously and that the divorce About the time that the mother of tate is as a consequence to cease in Samuel was recorded in Biblical its upward trend.

The wedding ring is a relic of savagery. It is probably a descendant of the metal bracelet and chain by which the earlier tribes of men assured themtge to a St. Anna who is thought to selves that their spouses would not to a flare-back to the great Roman wander away from the house domicile while the master of the house was away hunting.

Some more engaging wife, having ag herself Anna, married Grand Prince of Moscovy and carried the convinced her husband of unquestion able fidelity, was rewarded by having the bracelet replaced by the ring and jued forth in various forms of diminu- the chain done away with altogether,

The ring by itself showed that she ives and endearments, one being the was married. The absence of the chain said, "Here is an exceptionally fine wife." That flattered and pleased o the influence of all tongues probboth parties.

But if the modern woman is expected to wear a wedding ring and advertise her married position, what good reason is there why the husband should not be marked in an equally prominent manner and his limitations of freedom equally advertised?

An old custom of the marriage ceremony consisted of putting the wedding ring first on the thumb, then on the first finger, then on the second, speaking the names of the Trinity as the ceremony proceeded, and, finally, when ft rested on the third finger, it was supposed to signify that next to her duties to God the wife recognized her daties to her husband.

Of course, it ought not to require a ring or any other form of emblem to make a man or a woman hold sucred the vows of the altar. If a thin band of gold or platinum is all that restrains either one of them from wandering, then the divorce court is not very far away.

To most women the wedding ring No matter how disabled he is, a war veteran's claim will always have is a very sacred thing. It is the last thing that goes to the pawnshop when adversity demands its toll. Just how much it means to the men, who in accordance with the new custom will wear it, is a question that only a test In the District Court of the United States for the District of Nevada. A. A. Molino, Plaintiff, vs. Manches-

The question of divorce in this coun-

The question of divorce in this country listed out of the District Court of the Inited States for the District Court of the Inited States for the District of Nevach. In the above entitled action, third day of May, 1821, and in which sation ladgment was entered in favor of the above named plaintiff and aminist the above named plaintiff and aminist the above named defendant for the twenty years the number of divorces granted annually has increased from about 60,000 to 133,000 with a total in the twenty years of nearly two millions.

In twenty years the number of divorces as there are almost as many divorces as there are marriages, but, since Nevada has been the resort of many citizens

parents have been involved in the court proceedings which followed the desire for separation.

In many states it has come casier to get divorced than it is to get vorce laws slike, and what is illegal in one state becomes perfectly all right so far as the statutes go the minute the imaginary line between it and another commonwealth is crossed.

Perhaps the custom of wedding rings for men will have a good effecton the bad record recited above.

Perhaps, on the other hand, the men will wear their badges of matrimony in their vest pockets whenever they think a more conspicuous display will interfere with an evening a little gayer than they would have at home.

But whatever means is necessary for the correction of present conditions should be determined and put into

Marriage should be made less of a farce and divorce less of a joke than present records show both to be.

The marriage relation is an imper tant part of our civilization. It mer its more attention and more perfec tion than it is at present receiving. (Copyright.)

In White and a Color

for hot, midsummer weather-and it is refreshing. It suggests the snow, coldest-looking thing in nature. Designers, however, have demonstrated that certain shades of color, combined and by other means. with white, make clothes more convincingly cool looking than all-white mensely to their attractiveness for hot weather wear.

and in the colors used with white and makes blouses and smocks for wear with white skirts that leave nothing to wish for. Smocks or blouses with short peplams are more popular than the regulation waist-length model
